Why MJF?

Directpartsolution.com

Let's develop and learn about MJF together

About

I am a Production manager with 10 years' experience in a full spectrum of 3D printing, rapid machining, and quick-turn tooling solutions for the highest quality prototyping and production. I am focused on Lean and Six Sigma methodologies to support business improvement.

Very experienced in working against tight deadlines, rescheduling, manning redeployment and an overall effective operational decision taking. I focus on quality and volume and improvements to service levels.

I focus on providing all customers with a quality product and service.

In my spare time, I enjoy going to the gym and regularly partake in charity runs in order to help the community and to stay fit and healthy.

Acknowledged as a hands-on pragmatic engineer and engineering leader experienced in reliability, assure a quality product, preventive maintenance and project management. Ambitious, enthusiastic, positive and confident individual that is committed to a personal improvement programme.

Highly passionate, knowledgeable, and determined individual with a background in optimising process for cost and quality. A proven track record of delivering results in a timely manner to deliver productivity, quality, and safety targets.
