Why MJF?

Directpartsolution.com

Let's develop and learn about MJF together

About

I became company owner in February 2019 and became responsible for architecting the company's strategic direction and leading Direct Part Production through a transformation that is defining a new era in manufacturing. Along with Direct Part Production's strong workforce, I am focused on driving technology innovation and which equipment to invest in. I am responsibility for sustainable manufacturing solutions across various industries and end markets.

Prior to Direct Part Production I was president and chief operating officer for the electrical sector business for Eaton, a power management company with over \$20 billion in sales and 102,000 employees. She also had corporate responsibility for the Europe, Middle East and Africa regions. I also led several strategic initiatives including digital technology transformation and globally distributed innovation centers.

I am co-chair of the World Economic Forum (WEF) Advanced Manufacturing CEO Community (2022) and joined the WEF Alliance of CEO Climate Leaders (2021). I currently serves on the Board of Directors of Uber and Catalyst.org, a member of the Business Roundtable and the Catalyst CEO Champions For Change initiative.
